 SWISS KRONO

Welcome,  
bienvenue, benvenuti,  
**WILLKOMMEN**

**DE** Als Schweizer Familienunternehmen entwickelt SWISS KRONO AG dekorative Holzwerkstoffe für anspruchsvolle Arbeits- und Lebensräume. Alle unsere Produkte sind mit den höchsten Ansprüchen an Qualität und Nachhaltigkeit gefertigt. Die Uni-, Holz- und Designdecore der ONE WORLD lassen sich immer wieder neu, passgenau und individuell kombinieren.

**EN** As a Swiss family company, SWISS KRONO AG develops decorative wood materials for sophisticated work- and living spaces. All of our products are manufactured with the highest demands in terms of quality and sustainability. The plain colours, wood and design decors in ONE WORLD can be combined in continually new and distinct ways and fit perfectly.

*Unsere Produkte  
sind zu 100 % in der  
Schweiz entwickelt,  
gefertigt und  
zertifiziert.*

**FR** L'entreprise familiale suisse SWISS KRONO AG développe des matériaux en bois décoratifs pour espaces de vie et de travail au style affirmé. Tous nos produits sont fabriqués dans le respect des plus hautes exigences de qualité et de durabilité. Les décors Uni, Bois et Design de ONE WORLD peuvent être sans cesse combinés et recombinés selon vos goûts et besoins individuels.

**IT** SWISS KRONO AG, azienda familiare svizzera, sviluppa materiali decorativi base legno per spazi abitativi ed lavoro. Tutti i nostri prodotti sono realizzati per soddisfare i massimi requisiti di qualità e sostenibilità. I decori tinta unita, effetto legno e design di ONE WORLD si prestano a mille combinazioni per soluzioni perfettamente personalizzate.

# ONE WORLD

**ONE  
WORLD**  
COLLECTION

**DE** Weil wir rund 90 Prozent unserer Lebenszeit in Gebäuden verbringen, beeinflussen Innenräume wesentlich unsere Gesundheit und unser Wohlbefinden. Baubiologisch unbedenkliche Baustoffe und eine gute Raumluft sind aus diesem Grund ebenso essenziell wie viel Tageslicht und der unmittelbare Kontakt zur Natur. Zeitgemäße Architekturkonzepte müssen zudem in besonderem Masse die Bedürfnisse der Nutzer berücksichtigen und für gleichermaßen funktionale wie ästhetische Umgebungen sorgen. Die Produkte von SWISS KRONO AG bestehen aus Holz – das ein wohngesundes, individuelles Bauen ermöglicht und damit in der Lage ist, ein Optimum an Lebensqualität zu bieten.

**EN** Because we spend around 90 percent of our life in buildings, interior spaces have an essential impact on our health and our well-being. This is the reason why ecologically safe materials and a good room climate are just as important as natural daylight and close contact with nature. What's more, modern architectural concepts must account for users' needs to a high degree, and for the functionality as well as aesthetics of the surroundings in equal measure. The products from SWISS KRONO AG are made of wood – which allows for healthy living spaces and unique building options, and that is able to offer an optimum quality of life.

**FR** Puisque nous passons environ 90 % de notre vie en intérieur, ces espaces agissent de manière essentielle sur notre santé et notre bien-être. C'est la raison pour laquelle des matériaux sains sur le plan écologique et un air ambiant de qualité sont tout aussi importants que la lumière naturelle et la proximité de la nature. Les concepts architecturaux modernes doivent en outre prendre en compte les besoins des utilisateurs au plus haut degré ; tout autant que la fonctionnalité et l'esthétique de ce qui les entoure. Les produits de SWISS KRONO AG sont en bois, ce qui permet de créer des espaces de vie sains et qui offre des possibilités conceptuelles uniques ainsi qu'une vie optimale.

Image © Praveen Mohandas

Atelier 142 by Atelier Wilda, France.

**IT** Poiché trascorriamo circa il 90 per cento della nostra vita all'interno di edifici, questi spazi influiscono in misura significativa sulla nostra salute e sul nostro benessere. Per tale motivo, l'utilizzo di materiali da costruzione sani ed ecologici e una buona qualità dell'aria interna sono essenziali quanto un'abbondante esposizione alla luce diurna e il contatto diretto con la natura. Per essere adeguati ai tempi, i progetti architettonici devono inoltre tenere conto delle esigenze delle persone e creare ambienti tanto funzionali quanto gradevoli sul piano estetico. I prodotti SWISS KRONO AG sono realizzati in legno, un materiale che consente di costruire spazi personalizzati e salutari per una qualità della vita ottimale.

# Möglichkeiten mit Possibilities of ONE WORLD de possibilités di possibilità

**DE** Möbeldecore, so abwechslungsreich und inspirierend wie die Welt. Entstanden auf Grundlage der ständigen intensiven Beobachtung aktueller globaler Designtrends. Speziell zugeschnitten auf die konkreten Anforderungen der unterschiedlichen Menschen. Verschiedenste Uni-, Holz- und Designoberflächen lassen sich immer wieder neu, passgenau und individuell kombinieren.

**EN** Furniture decors that are as diverse and inspiring as the world itself. Developed based on the intensive ongoing observation of current global design trends. Specially tailored to the specific requirements of different people. The most diverse plain-coloured, wood and design surfaces can be combined in continually new and distinct ways and fit perfectly.

**IT** Decori per mobili, vari e ricchi di ispirazione quanto il mondo. Nati dall'osservazione continua e intensa delle attuali tendenze del design globale. Concepiti su misura per le esigenze concrete di persone diverse. Le superfici tinta unita, effetto legno e design si prestano a mille combinazioni per soluzioni perfettamente personalizzate.

*Zukunft gestalten,  
Designing the future,  
**SWISS KRONO**  
*Daçonner l'avenir,  
Creare il futuro**

**DE** Wir verbringen den Grossteil unseres Lebens in Gebäuden. Wir atmen Raumluft, werden von der Raumatmosphäre seelisch beeinflusst und stehen in Berührung mit Ausbaumaterialien. Bei der SWISS KRONO AG Initiative «CH80» stammen entlang der gesamten Wertschöpfungskette rund 80% der Rohstoffe aus der Schweiz und mindestens 80% der Wertschöpfung verbleiben in der Schweiz. Unsere Produkte aus Menznau sind damit «Swiss made». Wir produzieren nicht nur in der Schweiz, sondern fördern auch die Durchforstung und Verjüngung von Schweizer Wäldern, unterstützen das hiesige Gewerbe sowie hiesige verarbeitende Betriebe und vermeiden unnötig lange Transportwege. Durch unsere Produktionsprozesse sind wir schon heute in der Lage, 90% der eingesetzten thermischen Energie aus erneuerbaren Quellen klimaneutral herzustellen. Ein Gewinn für Mensch und Natur.

**EN** We spend most of our life in buildings. We breathe in-door air, are psychologically influenced by the room's atmosphere and come into contact with finishing materials. With SWISS KRONO AG Initiative "CH80", around 80 % of the raw materials along the entire value creation chain originates in Switzerland and at least 80 % of value creation remains in Switzerland. Our products from Menznau are therefore "Swiss-made". We not only produce in Switzerland, but also promote the thinning and rejuvenation of Swiss forests, support local trade and local processing companies, and avoid unnecessarily long transport routes. Thanks to our production processes, we are already in a position to produce 90 % of thermal energy used from renewable sources climate-neutrally. A win/win for mankind and nature.

Image © ENGRAM Studio

La Serre d'Issy, a contribution by MVRDV for the competition 'Inventons la Métropole du Grand Paris'.

**FR** Nous passons la majeure partie de notre vie dans des bâtiments. Nous en respirons l'air ambiant, sommes influencés par leur atmosphère et en contact permanent avec les matériaux de construction employés. Avec l'initiative « CH80 » de SWISS KRONO AG, 80 % des matériaux employés dans toute la chaîne de création de valeur proviennent de Suisse et au minimum 80 % de la valeur ajoutée reste en Suisse. Nos produits de Menznau sont donc certifiés « Swiss made ». Et non contents de produire en Suisse, nous soutenons également l'éclaircissement et le rajeunissement des forêts suisses, promouvons l'industrie et les entreprises de transformation locales, tout en évitant les longs transports. Grâce à notre processus de production, nous sommes aujourd'hui déjà capables de produire 90 % de l'énergie thermique utilisée à partir de sources renouvelables et d'assurer notre neutralité climatique. Un atout pour l'homme et la nature.

**IT** Trascorriamo la maggior parte della nostra vita all'interno di edifici. Respiriamo aria indoor, siamo influenzati psicologicamente dall'atmosfera degli ambienti chiusi e veniamo a contatto con i materiali da costruzione. Nell'ambito della SWISS KRONO AG Initiative «CH80», lungo tutta la catena del valore aggiunto circa 80 % delle materie prime proviene dalla Svizzera e almeno 80 % della produzione rimane nel paese. I nostri prodotti di Menznau sono quindi «Swiss made». Oltre a produrre in Svizzera, contribuiamo a tenere pulite e a rigenerare le foreste del paese, supportiamo le attività e le aziende di trasformazione locali, ed evitiamo percorsi di trasporto inutilmente lunghi. Grazie ai nostri processi di produzione già oggi siamo in grado di ottenere da fonti rinnovabili il 90 % dell'energia termica impiegata, con un impatto neutro sul clima. Un guadagno per l'umanità e per la natura.

# BE.YOND

Wie von der Natur vorgesehen,  
Just as nature intended, En harmonie avec la nature,  
Come insegnava la natura

**DE** Unsere BE.YOND-Produkte sind die umweltfreundlichsten Spanplatten auf dem Markt. Sie werden mit biobasierten Klebstoffen der nächsten Generation hergestellt, die den höchsten Anforderungen an die Raumluftqualität genügen.

**EN** Our BE.YOND products are the most environmentally friendly particle boards available and are produced using next-generation bio-based adhesives that provide the highest indoor air quality.

- Mindestens 98 % natürliche Materialien
- Nicht mehr Emissionen als ein Baum
- FSC®- oder PEFC-zertifiziert auf Anfrage
- Erfüllt Carb Phase II Standards
- Verbessert Ihren LEED Wert

- Minimum 98 % natural materials
- Same levels of emissions as a tree
- FSC®- or PEFC-certified on request
- Exceeds CARB Phase II standards
- Improves your LEED point of level

## BE.YOND

Just as nature intended

Japan  
emission standard

California / USA  
emission standard

European industry standard  
since 1960s

\*Limits related to EN 717-1

**FR** Nos panneaux agglomérés BE.YOND sont les plus respectueux de l'environnement sur le marché. Fabriqués à base de colles bio de dernière génération, ils répondent aux plus hautes exigences en matière de qualité de l'air.

- Au moins 98 % de matériaux naturels
- Pas plus d'émissions qu'un arbre
- Certification FSC® ou PEFC sur demande
- Conformité à la norme CARB Phase II
- Optimisation de votre bilan LEED

**IT** I nostri prodotti BE.YOND sono i pannelli truciolari più ecologici disponibili sul mercato. Realizzati con colle a base biologica di ultima generazione, soddisfano i più severi criteri di qualità dell'aria indoor.

- Minimo 98 % di materiali naturali
- Emissioni non superiori a quelle di un albero
- Certificazione FSC® o PEFC su richiesta
- Conformità agli standard CARB Phase II
- Migliora la valutazione LEED

# SWISSCDF

*Design trifft Stabilität,  
Design meets stability,  
Mariage du design et de la stabilité,  
Il design trova la stabilità*

**DE** SWISSCDF ist prädestiniert zur Fertigung komplexer und filigraner Frässtukturen. Dank neuster Laser- und CNC-Techniken kennt Ihre Kreativität keine Grenzen. Spezifische Anwendungen erfordern eine gezielte Auswahl an Materialien. SWISSCDF lässt sich mit allen Decoren der ONE WORLD Kollektion individuell kombinieren. SWISSCDF ist schwer entflammbar, entspricht der Brandklassifizierung nach EN 13501-1 und lässt dadurch die Anwendungsvielfalt wachsen. SWISSCDF ist spritzwasserresistent und perfekt für kreative Anwendungen in Innenräumen mit erhöhter Feuchtigkeit.

**EN** SWISSCDF is intended for the production of complex and delicate routed textures. Thanks to the latest laser and CNC techniques, your creativity knows no bounds. Specific applications require a targeted material selection. SWISSCDF can be individually combined with all decors in the ONE WORLD collection. SWISSCDF is flame-retardant, corresponds to the fire classification as per EN 13501-1 and therefore increases the range of applications. SWISSCDF is splash-resistant and perfect for creative applications in interiors with elevated moisture levels.

*SWISSCDF lässt sich  
mit allen Decoren der  
ONE WORLD Kollektion  
individuell kombinieren.*

**FR** SWISSCDF est prédestiné pour la fabrication de structures usinées complexes et filigranes. Grâce aux toutes nouvelles techniques CNC et laser, vous pouvez laisser libre cours à votre créativité. Les applications spécifiques requièrent l'utilisation de matériaux triés sur le volet. SWISSCDF peut être combiné individuellement avec tous les décors de la collection ONE WORLD. SWISSCDF est difficilement inflammable, conforme à la norme de classement au feu EN 13501-1 et permet ainsi un nombre croissant d'applications. SWISSCDF est résistant aux éclaboussures d'eau et parfaitement adapté aux applications créatives dans des espaces intérieurs à forte humidité.

**IT** SWISSCDF è predestinato alla realizzazione mediante fresatura di finiture complesse e raffinate. Grazie alle più moderne tecnologie laser e CNC, la creatività non conosce limiti. Applicazioni specifiche richiedono una scelta mirata dei materiali. SWISSCDF si può combinare in soluzioni personalizzate con tutti i decori della collezione ONE WORLD. SWISSCDF è difficilmente infiammabile e soddisfa i requisiti di classificazione al fuoco previsti dalla norma EN 13501-1, di conseguenza si presta a un ampio ventaglio di applicazioni. Resistente agli spruzzi d'acqua, SWISSCDF è perfetto per applicazioni creative in interni ad elevata umidità.

*Newe Strukturen,  
New textures,*

# HAPTIC EXPERIENCE

*Nouvelles structures, Nuove finiture*

**FR** L'expérience tactile est essentielle dans tout espace de vie. La recherche de textures particulières prend une importance croissante, tout comme le besoin de ressentir ce que l'œil voit.

**IT** La percezione tattile è essenziale in ogni spazio abitativo. Cresce il desiderio di superfici ricercate che siano in grado di soddisfare la vista e il tatto.

**DE** Haptische Erfahrungen sind für alle Lebensräume von essenzieller Bedeutung. Die Sehnsucht nach besonderen Oberflächen wird immer wichtiger – Menschen wollen fühlen, was das Auge sieht.

**EN** Sensory experiences are essential for all living spaces. The longing for special surfaces is becoming ever stronger – people want to feel what the eyes see.

## LUNIX (LX)

**DE** LUNIX ist eine hochwertige Steinstruktur, die inspiriert durch eine besondere Steinart der Rätischen Alpen entstanden ist. Vielseitig einsetzbar überzeugt sie durch ein modernes Wechselspiel von Matt und Glanz, mit Tiefeffekt und natürlicher Haptik.

**EN** LUNIX is a high-quality stone texture that inspires with a special type of stone from the Rhaetian Alps. Highly versatile, it impresses thanks to the modern interplay of matt and gloss – with depth effect and natural feeling.

**FR** LUNIX est une structure en pierre de haute qualité, inspirée d'une pierre particulière issue des Alpes rhétiques. Parfaitement polyvalente, elle séduit par son esthétique moderne alliant avec maestria surfaces mates et brillantes, avec une sensation de profondeur et une haptique naturelle.

**IT** LUNIX è una finitura effetto pietra di alta qualità, ispirata a un particolare tipo di roccia delle Alpi Retiche. Molto versatile, si contraddistingue per la sua percezione tattile estremamente realistica e per il moderno gioco di opacità e lucentezza che ne enfatizza la profondità.

## ONE VISION (OV)

**DE** ONE VISION ist eine universell einsetzbare Holzstruktur, die natürliche und haptische Anforderungen erfüllt.

**EN** ONE VISION is a wood texture that can be used anywhere, and which meets both, natural and sensory needs.

**FR** ONE VISION est une surface bois d'application universelle qui comblera toutes celles et ceux qui aiment le tactile et le naturel.

**IT** ONE VISION è una finitura effetto legno, universale, che soddisfa requisiti tattili e visivi.

## Nice to know! Save CO<sub>2</sub>

**DE** Die SWISS KRONO AG setzt auf Ressourcen-Effizienz und nachhaltige Energiebereitstellung. Ein ausgeklügeltes Konzept stimmt die Stoff- und Energieströme aufeinander ab. Dies reduziert die CO<sub>2</sub>-Emissionen und verbessert die mit Holz erzielbare Wertschöpfung.

**FR** SWISS KRONO AG mise sur la préservation des ressources naturelles et la mise à disposition d'énergie durable. Un judicieux concept permet d'harmoniser les flux de matériaux et d'énergie, d'où une réduction des émissions de CO<sub>2</sub> et une amélioration de la valeur ajoutée du bois.

**EN** SWISS KRONO AG places great emphasis on resource-efficiency and sustainable energy provision. A sophisticated concept adjusts the material and energy flows to one another. This reduces CO<sub>2</sub> emissions and improves the value creation achievable with wood.

**IT** SWISS KRONO AG punta sull'uso efficiente delle risorse e su una produzione sostenibile dell'energia. Un intelligente piano di produzione armonizza i flussi di materiali e di energia. Questo riduce le emissioni di CO<sub>2</sub> e valorizza ulteriormente i prodotti base legno.
